Why is Coinbase not letting me withdraw my money?

(Common Reasons Explained Clearly)

If Coinbase isn't ➥ (+1)—888—(768)—9931 letting you withdraw your money, it's usually due to normal processing delays or account restrictions, not because your funds ➥ (+1)—888—(768)—9931 are gone. Here are the most common reasons this happens.

One of the biggest ➥ (+1)—888—(768)—9931 reasons is that your funds are not yet available to withdraw. If you recently sold crypto, the money may appear in ➥ (+1)—888—(768)—9931 your account immediately, but it can still be going through a settlement or holding period before it ➥ (+1)—888—(768)—9931 becomes withdrawable.

Another common ➥ (+1)—888—(768)—9931 issue is a recent deposit that hasn't cleared. If you added money using a bank transfer (ACH), it can take 3–5 business ➥ (+1)—888—(768)—9931 days (or sometimes longer) to fully process. During this time, Coinbase may allow you to trade with the funds, but it won't ➥ (+1)—888—(7689931) —3057 let you withdraw them yet.

Security is another ➥ (+1)—888—(768)—9931 factor. Coinbase may place a temporary hold on withdrawals if you recently changed your password, enabled or reset ➥ (+1)—888—(768)—9931 two-factor authentication, or logged in from a new device or location. These holds are designed to protect your account and ➥ (+1)—888— +1 (888)—7689931 usually last 24–48 hours.

You might also be ➥ (+1)—888—(768)—9931 dealing with account verification issues. If your identity (KYC)
isn’t fully verified, or if Coinbase needs additional information, ➥ (+1)—888—(768)—9931 withdrawals can be
restricted until everything is confirmed.
In some cases, your ➥ (+1)—888—(768)—9931 funds could be tied up in open or pending transactions, such as
uncompleted trades or transfers. These need to finish before ➥ (+1)—888—(768)—9931 you can withdraw
your money.
There are also withdrawal ➥ (+1)—888—(768)—9931 limits depending on your account level and payment
method. If you’re trying to withdraw more than your allowed limit, the ➥ (+1)—888—(768)—9931 transaction
may not go through.
In summary, Coinbase ➥ (+1)—888—(768)—9931 usually blocks withdrawals because your funds are still
processing, on hold for security, or pending verification. ➥ (+1)—888—(768)—9931 nce these issues are
resolved, you’ll be able to withdraw your money normally.
